

ASSISTIVE TECHNOLOGY AND YOUR CHILD: A RECIPE FOR SUCCESS

With Geoff Weber, George Mason University, TTAC

Wednesday, May 8, 2019 6:30-8:00pm

KELLAR LIBRARY, Finley Building, Room 116

4400 University Drive, Fairfax

George Mason University Fairfax Campus

Did you know that your child or youth with special needs has access to assistive technology (AT) that could make a difference in his or her educational success? Come and join Geoff Weber, Assistive Technology Coordinator for the Virginia Department of Education's Training and Technical Assistance Center (TTAC) at GMU, to learn your rights, strategies for advocating for appropriate AT for your child during individualized education program (IEP) meetings, and how to choose the right devices. Formed Families Forward is pleased to host this event on-site at the Kellar Library in the Finley Building on the campus of George Mason University in Fairfax. The Library will be open and available to families to use that evening as well!

Formed Families Forward is a non-profit organization operating a resource center for foster, kinship, and adoptive families in the Northern Virginia area. Open to all parents, caregivers, and professionals, though content will address issues of particular relevance to foster, adoptive and kinship families.

THIS EVENT IS FREE. Please register at <https://ffassistivetech.eventbrite.com> or visit www.FormedFamiliesForward.org for further information.
